Mobile Technologies to Improve HIV Treatment Adherence: Health IT and HIV Adherence Communities Joint Panel Nov. 15-19

Adherence & Retention Community

- Nearly 1,400 members from 680 organizations and 100 countries
- Sharing experience & knowledge from research and practice

Discussion topics

- 1) Best ways for technology to improve adherence monitoring and intervention.
- 2) Limitations of the technology-focused approach. Is real-time adherence monitoring feasible outside the research setting?
- 3) Unexplored opportunities for mHealth.

Participation Directions:

- 1) Sign up to be a member at www.ghdonline.org and join the Adherence & Retention community.
- 2) Set your notifications to “per post” or “daily digest” and then join the discussion!
